

Recommended Arbitration Clause

No matter how well arrangements are recorded in commercial contracts, a dispute can still arise with your contracting partner. It is therefore advisable to also make provision in that contract for the resolution of any disputes. Unum arbitration is a modern and professional way to settle disputes at a reasonable cost.

If you decide to choose Unum arbitration for dispute resolution, you can include the following clause in your contract:

"Any dispute arising out of or in connection with this agreement shall be referred to Arbitration in Rotterdam in accordance with the Unum Arbitration Rules (available at www.unum.world)".
